## PROSPECT TERRACE PARK GALLERY

I attended the RISD 2016 PreCollege Program and majored in Architecture. It was a very meaningful experience for me and I loved the works I created there.,

My assignment was to create a building for prospect Terrace Park, to house a gallery as well as a residence.The slope of the ground level in Prospect Terrace Park was a challenge to build upon. One of our requirements was to find a way to adjoin the building with the park. My solution was to use the roof of the building as a stairway entrance to the park.

Digital Drawing

## LADY

This is an experimental piece, mostly focusing on the skin tone.

## A SEPARATE PEACE

This was the end of the story and all of the mystery was vanishing.
